

USA INVESTMENT

**PATH TO GREEN CARD WITH
MAXXWELL PRODUCTION**

EB-5 PROGRAM

EB-5 PROGRAM

EB-5 IS A POPULAR GOVERNMENT PROGRAM THAT ALLOWS FOREIGN NATIONALS TO OBTAIN PERMANENT RESIDENCY ("THE GREEN CARD") IN EXCHANGE FOR INVESTING INTO THE UNITED STATES.

(YOU ALSO RECEIVE YOUR INVESTMENT AMOUNT BACK AT THE END OF THE PROCESS)

EB-5 PROGRAM

*Source: <https://iiusa.org/resources-data/eb-5-economic-impact/>

- The program keep changing over the years. Currently minimum investment amounts are **\$800,000** (for areas with high unemployment or rural areas) and **1,000,000** for all other areas.
- Your investment must create 10 direct indirect **jobs** over **2 years**.
- It can take between **15-36 months** receive your conditional green card.
- It takes between **21-24 months** after receiving conditional green card to receive permanent green card.
- On average you will receive your investment back in **3-5 years**.

EB-5 PROGRAM + MAXXWELL PRODUCTION

REGIONAL CENTER MEANS YOU INVEST IN A BUSINESS THROUGH A GOVERNMENT APPROVED ORGANIZATION. DIRECT PROGRAMS MEANS YOU INVEST DIRECTLY INTO ENTERPRISE. ALL OTHER

TIMELINES FOR OBTAINING THE GREEN CARD ARE THE SAME

Regional Center

More formal process and gives you less control

Takes longer to qualify

More Expensive

Direct Investment

Much faster and less complicated

More clear what types of jobs your investment will be able to create

Less Expensive

WHY MAXXWELL PRODUCTION?

- 01** Maxxwell Production's Unique Technology - energy security and environmental protection
- 02** Our team has extensive practical experience since 2011 in the restoration of marginal oil and gas wells with positive results. Our partners: HALLIBURTON, CHEVRON, BAKER HUGHES
- 03** Recover up to 95% of oil or gas from reservoirs with greater productivity and with a duration of more than 15 years
- 04** 200 % ROI makes low-productivity, abandoned wells development a rare investment opportunity.

Maxxwell Production
is the only company performing abrasive
slot perforation technology in the
Americas

A large number of marginal wells have been shut down and abandoned over the past 10 years, and lost profits from oil sales amounted to about \$4 billion. But many of them can still be restored and the productive inflow can be increased.

Maxxwell Production specializes in the restoration of unproductive wells, but the technology also works well in newly drilled wells

OUR PROCESS

You don't have to be located in US. You can start the process anywhere. Our Team will take care of everything.

STEP 1

**Make
Investment**

STEP 2

**Investment
creates a
warehouse and
